TITLE 67 - NEBRASKA EMERGENCY MANAGEMENT AGENCY

CHAPTER 08 - FEES

08-001 SCOPE AND AUTHORITY:

08-001.01 This chapter establishes the fees for the calibration of radiological instruments by the Radiological Emergency Preparedness Division of the Nebraska Emergency Management Agency. The regulations are authorized by Neb. Stat. Rev. sections 71-3529 to 3536.

08-001.02 Except as otherwise specifically provided, the rules and regulations in this chapter apply to any responsible agency which owns radiological instruments or has agreed to be responsible for the replacement, repair, or calibration of such instruments and desires the instrument or instruments be inspected and repaired or inspected and calibrated by the Radiological Emergency Preparedness Division of the Nebraska Emergency Management Agency.

08-002 DEFINITIONS: For the purposes of 67 NAC 08, the following definitions apply:

Radiological instruments mean, but are not limited to, radiological meters, radiological detectors and probes, radiological dosimeters and radiological kits.

Responsible agency means any state or local governmental entity or private agency which owns radiological instruments or has agreed to be responsible for the replacement, repair, or calibration of such instruments.

08-003 DELIVERY AND RETURN: The responsible agency is responsible for the delivery and receipt of radiological instruments to and from the Radiological Emergency Preparedness Division of the Nebraska Emergency Management Agency.

08-004 PAYMENT OF FEES:

08.004.01 Fees for calibration shall be paid in advance of calibrations performed.

08.004.02 Fees for inspection, replacement of parts, and repair will be paid prior to receipt of the radiological instrument or instruments by the responsible agency, unless the responsible agency is a state or local governmental agency where fees may be paid within 30 days of receipt of the radiological instrument or instruments.

08.004.03 Under no circumstances will radiological instruments be returned to the responsible agency until all fees have been collected, unless otherwise specified in this regulation.

08-005 EXEMPTIONS: Fees for inspection, calibration, or repair shall not apply to a radiological instrument or kit owned by the Radiological Emergency Preparedness Division of the Nebraska Emergency Management Agency, except when a responsible agency has been issued a radiological instrument or kit, and, by agreement, has consented to be responsible for the replacement, repair, and calibration of the instrument or kit.

08-006 FEES FOR THE CALIBRATION OF RADIOLOGICAL INSTRUMENTS:

1.	Direct-reading* dosimeters	\$ 22.00
2.	Electronic dosimeters	\$ 31.00
3.	CD V-700 (survey) meters	\$ 36.00
4.	CD V-715 (survey) meters	\$ 25.00
5.	CD V-718 (survey) meters	\$ 39.00
6.	Thermo-Electron** FH-40GL (survey) meters	\$ 66.00
7.	Thermo-Electron** ASP-2 (survey) meters	\$ 66.00
8.	All electron detectors	\$ 46.00
9.	All other meters	\$ 66.00
10.	CD V-700 Kit	\$ 149.00
11.	Thermo-Electron** FH-40GL Kit	\$ 230.00
12.	Thermo-Electron** ASP-2 Kit	\$ 224.00
13.	All other kits, the cost of calibration of the instruments within the kits, minus 10%.	

- \* Also known as "self-reading", "pencil", and "pocket" dosimeters
- \*\* Now known as "Thermo Fisher Scientific"

08-007 FEES FOR REPAIRS:

08-007.01 The fees for repairs will be at the base rate of \$16.00 per hour.

08-007.02 The actual cost of parts, including shipping charges, shall also be included in the total cost for repairs.

08-008 FAILURE TO PAY PRESCRIBED FEES:

08-008.01 If a calibrated radiological instrument or kit has not been receipted from the Radiological Emergency Preparedness Division of the Nebraska Emergency Management Agency by the responsible agency sixty (60) days after the completed calibration or repair date, the Radiological Emergency Preparedness Division of the Nebraska Emergency Management Agency shall provide written notification to the responsible agency to take receipt of the instrument or kit within thirty (30) days or inaction will result in the forfeiture of the radiological instrument or kit.

08-008.02 Written notification by the Radiological Emergency Preparedness Division of the Nebraska Emergency Management Agency shall be made a total of three times to the responsible agency with not less than five (5) working days between notifications.

08-008.03 If, after proper notification and ninety (90) days after the completed calibration or repair date, the instrument or kit has not be receipted for by the responsible agency, the instrument or kit shall become the property of the State of Nebraska and shall be available for issue by the Radiological Emergency Preparedness Division of the Nebraska Emergency Management Agency to issue to other responsible agencies

who agree to be responsible for the replacement, repair, and calibration of the radiological instrument or kit.

08-008.04 If no responsible agency desires the radiological instrument or kit, it shall be turned in as surplus property.
