TITLE 172                    PROFESSIONAL AND OCCUPATIONAL LICENSURE

CHAPTER 92                LICENSURE OF GENETIC COUNSELORS

92-001 SCOPE AND AUTHORITY: These regulations govern the licensure of genetic counselors under the Genetic Counseling Practice Act and the Uniform Credentialing Act. Persons providing genetic counseling services to patients located in Nebraska must be licensed as a genetic counselor in Nebraska unless they are exempt under the Act(s).

92-002 DEFINITIONS: For purposes of these regulations, definitions in the Uniform Credentialing Act and the Genetic Counseling Practice Act and the following definitions are hereby adopted.

Attest or attestation means that the individual declares that all statements on the application are true and complete.

Complete application means an application that contains all of the information requested on the application, with attestation to its truth and completeness, and that is submitted with the required fees and all required documentation.

Licensure in another jurisdiction means holding a credential that authorizes the individual to engage in the profession of genetic counseling which would otherwise be unlawful, from the District of Columbia or any state, territory, or possession of the United States of America, or any province of Canada.

Military service means full-time duty in the active military service of the United States, a National Guard call to active service for more than 30 consecutive days, or active service as a commissioned officer of the Public Health Service or the National Oceanic and Atmospheric Administration. Military service may also include any period during which a servicemember is absent from duty on account of sickness, wounds, leave, or other lawful cause. (From the Servicemembers Civil Relief Act, 50 U.S.C. App. 501 et seq., as it existed on January 1, 2007.)

Served in the regular armed forces has the same meaning as “military service” in these regulations.
